Presti has been providing innovative enveloping solutions to the retreading industry for more than three decades and have produced more than 2 million private labeled envelopes for some of the world's largest tread manufacturers. Today, Michelin, Bridgestone-Bandag and Goodyear all use enveloping technology originally developed and/or manufactured by Presti.

APPROVED

NOTE: Outside envelopes are packaged four (4) of the same size per box. Inside envelopes are packaged two (2) of the same size per box. All suggested envelope selections are to be used as a guide only. Variations in tire sizes; dimensions, tread design and tread thickness may require a smaller or larger envelope size. In some instances, it may be necessary to measure the built tire to determine the correct envelope size. All capacities and specifications are subject to change without notice.
