TECHNOLOGY LEADER

In 1989 Presti invented and patented the form fitting double envelope system. For over 40 years, Presti has been producing innovative products, which have set new performance standards for enveloping technology. More than 10,000,000 tires are retreaded annually using the Presti Enveloping Systems.

Today, Michelin, Bridgestone-Bandag and Goodyear all use enveloping technology originally developed and/or manufactured by Presti.

NOTE: Outside envelopes are packaged four (4) of the same size per box. Inside envelopes are packaged two (2) of the same size per box. All suggested envelope selections are to be used as a guide only. Variations in tire sizes; dimensions, tread design and tread thickness may require a smaller or larger envelope size. In some instances, it may be necessary to measure the built tire to determine the correct envelope size. All capacities and specifications are subject to change without notice.
